From: Sally Roush, <vp.business.affairs@sdsu.edu>
Vice President, Business & Financial Affairs

Subject: Hurricane Katrina Response Update

I was informed today that San Diego State is no longer needed as a potential evacuation site for Hurricane Katrina survivors.

On behalf of President Weber and myself, I want to thank everyone on campus for your graciousness, thoughtfulness and effort to be prepared had it become necessary to shelter survivors on campus.

I am pleased with the speed and efficiency with which the entire university mobilized to answer the call to serve. While we weren't needed this time, it's comforting to know we can be relied upon should the need arise in the future.
